SUMMARY

Senior Application Systems Consultant
Software Development Project Leader
Database Architect
Education, Training and Documentation Developer

Mr. Vega's thirty years of experience as a developer and project leader and his varied technical background enable him to excel in many aspects of application development. He produces superior results in systems that require the strongest analysis, design, programming, management and user contact skills in third and fourth generation languages, databases, networking and production control arenas. Dan incorporated his company, CASSI Computer Consulting, in 1984.

Software: SQL, SQR/Brio, C/C++, PeopleSoft, MS SQL Server, Sybase, Oracle, DB2 UDB, Crystal, PowerBuilder, HTML/CGI, PERL, ASP, JavaScript, Access/VB, Unix Shells, SSH, XML, PostScript, COBOL, Assemblers, JCL, DCL, VSAM, VTAM, ADABAS, IDMS.

Hardware: Sun SPARC 5, 20. PC 386 to P5. Mac 68000 and Power-PC. IBM 3090, 4300, 370. DEC VAX 6610, 3100, PDP 11. Data General MV/S Eclipse, Nova. Commodore Amiga.

Systems: Unix, Linux, Solaris. Windows, Novell NetWare, PC-DOS. TCP/IP, WWW Httpd, CGI. Data General AOS/VS, RDOS. DEC VAX VMS. IBM MVS, TSO, SPF, VM/CMS, DOS/VSE. Mac OS 6-8.

- Past Clients and Employers -

- Global Financial Service Companies and Research Firms
 - Hospitals and Health Care Service Providers
 - Software Systems and Network Development Consulting Firms
 - Telecommunications Service Companies
 - Manufacturers and Construction Companies
 - Corporate Technology Training Providers
- Clients are kept confidential upon request*

- Education -

1976, Ithaca College School of Drama, Ithaca, NY

Continuing Education Courses:

- Java Programming, Northeastern U., Mar. 2002
- Structured Systems Analysis and Design, Northeastern U., Dec. 1998
- Fast Track to PowerBuilder, July 1997
- Windows NT Server Technical Support, April 1996
- Novell Certified Network Engineer, Nov. 1993
- Managing Multiple Projects, SkillPath Inc., June 1993
- Windows 3.0 Programming, Boston Computer Society, June 1991
- Fast Track to Sybase, June 1990

Resume: Daniel J. Vega

PREVIOUS EXPERIENCE

to
Present Project Leader and principal developer of custom PeopleCode and Application Designer enhancements, interfaces, management and revenue reports, record designs, security, Integration Broker, query optimization and data conversion for several clients of this consulting firm. Used PeopleSoft Financials and Supply Chain Management, Oracle, MS SQL Server, DB2 UDB, App Engine, XML, Crystal Reports, SQL and SQR.

October 2007 **GLOBAL HEALTHCARE EXCHANGE, LLC**, Louisville, CO
to
Present Primary PeopleSoft interface developer, implementing XML and file level integrations to their healthcare supply chain exchange, and web-based data management applications using PeopleSoft Supply Chain Management, Oracle, MS SQL Server, DB2, SQR, App Engine and XML.

May 2006 **SOARING EAGLE CONSULTING, INC.**, Lutz, FL
to
Present Instructor for corporate training in beginner and advanced SQL for Oracle and MS SQL Server at client sites.

July 1997 **ARKOA, INC. TECHNICAL TRAINING**, Westborough, MA
to
June 2004 Instructor for corporate training, teaching SQL classes at client sites. Also performed application development for their back office system using MS Access, VB and ASP. Formerly Instruction Set.

December 1993 **SYBASE, INC.** Concord, MA
to
September 2001 System architect for consulting, education and accounting applications in their global professional services division. Led teams to build international invoicing and customer correspondence systems. Principal developer for revenue reports, web training registration system, automated fax and email, intranet web site, Open Server report gateway. Heavy user support. Used Sybase, SQR/Brio, C/C++, PowerBuilder, HTML/CGI, PERL, JavaScript, Essbase, MS Access, VB and DBS/GEAC SmartStream on Solaris Unix, Mac, and WinNT.

Resume: Daniel J. Vega

April 1990 **I/B/E/S, INC.** New York, NY
to
November 1993 Project leader and designer for new I/B/E/S corporate earnings estimate analysis and reporting system for this financial market research firm. Led four consultants in the development of a production control platform for publishing 1,500 data products. Used Sybase, C and SQR on VAX VMS and PC DOS/Windows.

July 1987 **THE BOSTON COMPANY,** Boston, MA
to
April 1990 Project leader and senior programmer/analyst for the I/B/E/S mainframe system for this financial services firm. Supervised a team of three, providing maintenance and enhancement using ADABAS, Natural, VSAM, COBOL, FORTRAN and BAL on IBM MVS/ESA.

December 1985 **SHAWMUT BANK,** Boston, MA
to
February 1987 Programmer/analyst for their mutual funds system. Developed a touch-tone phone voice-response transaction processing system, check MICR encoding, and tax forms. Used COBOL and FORTRAN on Data General AOS/VS.

June 1984 **BRADFORD SYSTEMS, INC.** Boston, MA
to
December 1985 Programmer/analyst for mutual funds retail system. Developed bulk report scheduler, tax and commissions, and VSE file transfers. Used COBOL and IDMS on MVS.

PREVIOUS EMPLOYER HISTORY

August 1983 **SOFTWARE RESEARCH CORP.** Needham, MA
to
May 1984 BAL developer for this IBM systems consulting firm. Projects included VTAM networking and VM/CMS training.

February 1983 **ZIP CALL, INC.** Brighton, MA
to
August 1983 Technical support programmer/analyst and system administrator for this pager company, for their network of Data General systems.

August 1977 **ISI SYSTEMS, INC.** Bedford, MA
to
February 1983 Programmer/analyst and operations supervisor for this insurance service bureau, for On-line Applications and Computer Center Support. Used IBM MVS, BAL, COBOL, IDMS, Apple II assembler.
